GGR493Y: Geography Professional Experience

Fall–Winter, 2021–2022

This year-long course is designed to give students in Geography and Planning programs some exposure to potential professional career opportunities. Students work on group projects for external organizations related to their studies in human geography, physical/environmental geography, GIS, or planning. It provides an opportunity for students to explore their career options and goals and to develop networks and skills to help them succeed in the workplace. In addition to their group placements, students will engage in a variety of classroom activities that will complement their professional experiences, including, but not limited to a series of mock collaborative problem solving exercises facilitated by professional experts.

Course Instructor: Dr. Richard DiFrancesco

Information Session: March 30, 2021, 4pm
Zoom link to be announced on the TUGS Quercus list.

Applications due April 17, 2021
Submit by emailing: undergrad@geog.utoronto.ca
